RUSSIANS AT TOULON

Great Demonstration in Honor of the Allies of France.

The Czar's Sailors Given a Hearty Welcome-The Army About to Desert the Brazilian President.

TOULON, Oct. 13.-This city was crowded with people to-day, all anxious to honor the visiting Russians who had come with their fleets of war ships. Every 'man, woman and child seemed determined to corral at least one Russian sailor and try to make him as happy as possible during his stay at this port. From the earliest hours of the morning excursion trains were run into the city, bringing thousands of country people, with their families and lunch baskets, determined to see the show. All the shipping in the harbor is decorated from stem to stern with the brightest of marine raiment. In the harbor the vessels are flying the Russian colors alongside the tri-color of France.

At 9 o'clock an immense crowd of small crafts accompanied the French cruiser Davoust down the harbor. Upon the Davoust were the members of the Russian embassy, in full uniform, detailed to give the Russian welcome to the visiting sailors of the Czar. The Davoust was escorted to the outer roadstead by four French dispatch vessels and by six torpedo boats, all gaily bedecked with flags and looking as bright and spritely as ever such crafts did in the history of marine entertainment. This fleet steamed out as the news was telegraphed in that the Russian squadron had been sighted fifteen miles out at sea, and M. De Giers, the Russian Minister of Foreign Affairs and the councillor of the Russian embassy, with the naval attaches and others, proceeded in a special boat at 9:30 a. m. to give the preliminary welcome to the Rus-

As was anticipated, the excitement of the Frenchmen was intense. They shouted and cheered, cried "Vive la Russie," "Vive la France" and "Vive la Republique," as if France" and "Vive la Republique," as if their very lives depended upon making as much noise as possible. M. De Giers met the Russian squadron in the roadstead and boarded the flagship Emperor Nicholas I, from which the flag of Admiral Avellan was flying. The dispatch boat having M. De Giers on board ran alongside the Russian flagship, and the diplomate and Admiral met. On board the flagship M. De Giers presented Admiral Avellan with the most cordial welcome from the French most cordial welcome from the French Minister of Marine and from the French nation generally. Salutes were exchanged with the forts, bands played, flags were dipped and the most noisy and joyous time possible was indulged in by both Russians and their French hosts. The Russian vessels passed in the entrance to the harbor at 11:45, proceeding in single file, headed by the Admiral's flagship. The customary salutes were exchanged and vociferous cheers arose form the Russian and French cheers arose form the Russian and French ships and the thousands of craft around

The address of welcome of Mayor Prosper Ferrero, of Toulon, was delivered to Admiral Avellan. It says that he represents all the departments of France, and that they desire to express the sympathy felt by France toward Russia, and wish to show that the hearts of all Frenchmen beat together and are animated by one feeling. Continuing, the Mayor's address says: "Your visit cements the friendship between the two nations and proves the affinity existing between the two races."

DESERTING PEIXOTO.

The Brazilian Army Inclined to Join the Rebellious Navy. MONTEVIDEO, Oct. 13. - Advices from Rio de Janeiro are that the army, which has hitherto been loyal to Peixoto's government, is likely to join the naval Insurgents. Two battalions of the National Guard have revolted and have declared for the rebels. It is believed that the disaffection will spread rapidly, and that more of Peixoto's troops will soon declare their adherence to Admiral de Mellos's cause. The rebel squadron in front of Rio de Janeiro is inactive, owing to the lack of ammunition. Hostilities, it is believed, will be resumed as soon as the steamer Ciudade de Porto, which is carrying supplies to Admiral de Mellos, reaches him. The revolutionary uprising in the southern province of Rio Grande do Sul is daily gaining strength. A large force of the rebel army is besieging Livranido, and the residents

Details of the bombardment of Rio by the insurgent fleet on Oct. 4 have just been received. From the ships in the bay under Admiral de Mellos six hundred shots were fired, but only five or six of them struck the forts. Six White Capson Trial for Cruelly Whipping a Woman.

Confession by One That May Result in Conviction of All-Arrest of a Suspected Burglar.

Special to the Indianapolis Journal. SALEM, Ind., Oct. 13.-The noted White Cap case in which James Dalton, Elijah Dalton, James Payton, George Holesapple, Ed Boling and Taut Barnett are charged with conspiracy, and also with whipping Mrs. Emily Dalton, about midnight on Aug. 5, is on trial here. A large crowd is in attendance. A sensation was created at the beginning of the trial when James Payton turned State's evidence and confessed. He said that on the night of the whipping, himself, George Holesapple and James Dalton hired a spring wagon at Salem, and together with Taut Barnett, who was too drunk to stand or sit, they drove to the Dalton house, nearly twenty miles away. He said that Holesapple and Dalton told him they went to make peace between Dalton and his wife. But when they got there they took the woman from her bed, and while James Dalton held her hands around a post George Holesapple whipped her with a sapling until her night shirt was so cut and torn that it fell from her bleeding and bruised body. Elijah Dalton, her husband, stood quietly by and made no effort to interfere. Once in a while Holesapple would stop whipping to see how bad-ly the woman was hurt, but Payton, it appears, made no effort to interfere. So far no conspiracy is proven, but the principals seem certain of a term at the Prison South. There is great indignation against them. The woman is still unable to use one of her arms, and her body is terribly bruised. She recognized every one of her tormenters as soon as confronted by them, they having used matches to make light to see how badly she was hurt while they were whipping her. Probably the big-gest crowd of witnesses ever called in a case here was present, altogether 135, but they were not needed after Payton's con-

Special to the Indianapolis Journal. LAFAYETTE, Ind., Oct. 13 .- On Wednesday night the police of this city arrested a young man on suspicion, who gave his name as Charles Bonsinger. On searching him a loaded revolver, a razor, a "jimmy," a watch and a number of small articles were found, and in addition he had about five hundred two-cent postage stamps carefully rolled in a paper. The police have been unable to learn anything about him, or how he obtained the postage stamps. The prisoner was sent to jail for fourteen days for carrying concealed weapons. This morning officer Fletcher, from the government department at Cincinnati, arrived in the city on a search for information as to where Bensinger secured the postage stamps. Fletcher, however, made no further progress than the city police. The man is close mouthed, volunteering no information. He says he is not yet twenty-one years old. He looks older than that, however. Bensinger is about five feet ten inches, dark complected, slight built, has dark eyes, very long dark lashes, and seems perfectly cool and collected. He is poorly dressed. The jimmy shows evidence of considerable use. The stamps have the appearance of having been carried around for some time, though they are in good condition. Postmasters who have been robbed should make known that fact at once, before Bensinger's sentence expires. Ine police claim there were two men here, but one got away. The prisoner says he was alone.

Valuable Horses Burned to Death.

Special to the Indianapolis Journal. MIDDLETOWN, Ind., Oct. 13 .- The large barn on J. M. Riley's Deer creek stock farm, five miles south of this place, was burned at an early hour this morning. There were several valuable blooded horses in the barn, all but two of which managed to escape with slight injuries. Tasco, 16964, the stallion at the head of the farm, and one of the most popular pacing horses in eastern Indiana, was caught in the flames and burned to death. He was a speedy animal, having a mark of 2:214, and was the sire of a number of flyers, prominent among which are Jessie L. (2:12%), Lora Y. (2:21%), Stephen W. (2:31%), Sunlight (2:27), Tasco, jr., (2:21) and others with marks of 2:30 or better. The horse was valued at \$6,000, and was insured for \$3,000, the live stock insurance companies at Crawfordsville and Indianapolis carrying the greater part of the risk. A fine blooded mare, valued at \$500, was also burned. In addition to these animals, a large quantity of hay, corn, oats, wheat, several vehicles and harness and other valuable property was destroyed. The entire loss is about \$10,000. The barn and contents were insured in the Ohio Farmers' for \$700. The fire is supposed to have been of incendiary origin.

Ed Moore. who once confessed the crime, but later swore that what he said was untrue, testified that his first story was true; that Noah King and Joseph Silvers were the guilty men. When asked why he had never told his story until after his arrest he said that King told him that if he ever opened his mouth about the matter he would murder him. He also said that it was King's threat of murder in jail that made him deny it all. The case grows stronger around King every hour.

A Farmer's Horrible Discovery.

Special to the Indianapolis Journal. FORT WAYNE, Ind., Oct. 13.-A horrible discovery was made last night on the Minor farm in this county. Mr. Minor was awakened by the noise of a horse and found his son, Daniel Minor, in the carriage hanging over the dashboard, with his brains battered out. Last evening Daniel left Monroeville to drive home, a distance of four miles. He was under the influence of liquor. It is not known whether he was foully dealt with or whether he dropped over the dashboard and the horse kicked him. He was an industrious farmer thirty years old and a widower.

Old Man Killed by a Train.

Special to the Indianapolis Journal. JAMESTOWN, Ind., Oct. 13.-William Toney, an old citizen, living one mile east of this place, was struck and instantly killed by eastbound passenger train No. 2 on the Peoria & Eastern railroad at 10:55 o'clock this morning. He had been ill for some time, and, his mind having become somewhat deranged, he spent his time in gathering bits of coal which fell from passing trains, and was engaged in this work when struck by the train. He was over eighty years of age, and was a pioneer settler in this community. No blame is attached to the train crew.

Charged with Horse Stealing.

Special to the Indianapolis Journal. DELPHI, Ind., Oct. 13.-Sheriff Stratton, of Allegan, Mich., arrived in the city to-day and arrested Sherman Emmons for horse stealing. Emmons and a companion named Taylor stole two horses near Allegan two months ago and sold them. They came to this county and hired out as farm laborers. Taylor got homesick, went back to Michigan, confessed and divulged Emmons's whereabouts. The young man comes from a good family. He was taken north to-day.

FREAKS OF LIGHTNING.

Pranks of the Current That Have Yet to Be Explained.

New Orleans Picayune. There are cases reported where persons struck by ligtning had small holes bored in the skull, but otherwise they were not marked. In other instances victims have been horribly burned, or even dismembered or disembowled. There have been cases where a stroke of lightning has cut off a man's ear or shaved his hair and beard clean and not hurt him in any other way. The markings are often curious. Blue is the common color, but they have been red, green and black, and occasionally the whole body turns black. Several times negroes who have been struck by lightning have had their skin bleached in spots to absolute whiteness. The most notable instance of this sort occurred in Mobile, Ala., on June 23 of last year. A negro struck by lightning found after he had recovered consciousness that he had one completely white arm. The rest of his body was as black as usual.

Blindness, deafness and total or partial paralysis are frequent consequences of lightning strokes. Sometimes the lightning selects a single object on a man's person and assails that without apparently touching the man himself. Coins have been melted until they stuck together in a man's pocket, while he suffered no ill consequences. If it fails to benefit or cure, in any case, they'll return the money. Nothing else that claims to purify the blood is sold in this way; which proves, so matter what dealers may offer, that nothing else can be "just as good." INDIANAPOLIS JOURNAL

THE

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this endit will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs given are especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until ithas a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in traus-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sanday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any oth . shape. It is carefully edited and offer the news- of the week in condensed shape and a variety of miscellany, agricultural and housshold literature that render it one of the best invest . ments that any family can make.
